WOMAN FINDS THAT SHE HAS SISTER LIVING

(By Associated Press.)
NEW YORK, July 30.—Mrs.
Frederick Boylhart, wife of a Brook-
lyn dentist, has just discovered for
the first time that she has a sister,
and that that sister is Mrs. Laura
Van Name of Plainfield, New Jersey.
When Mrs. Boylhart's adopted
mother died, a month ago, she left
a note saying she was not Mrs. Boyl-
hart's mother, but had adopted her
when she was a baby. This caused
Mrs. Boylhart to make an investiga-
tion, which has led to the finding of
her sister, who was similarly adopt-
ed by another family at the same
time.

CORNERSTONE OF CHURCH UNDER POLICE GUARD

(By Associated Press.)
NEW YORK, July 30.—Repeated
efforts to steal the cornerstone of
the old Methodist church in South
Third street, Williamsburg, have
caused a police detail to be station-
ed there day and night.
The structure is being demolished
to make way for a new building.
A report has been current in the
neighborhood for many years that
when the cornerstone was laid in
1847 the trustees and members of
the church deposited in it many val-
uable old coins and articles which
would be of great value now.
Various attempts have been made
by unknown persons, mostly at
night, to cut out the cornerstone.

PHILADELPHIAN A
HARD FIGHT.

(By Associated Press.)
DENVER, July 30.—Philadelphia
Jack O'Brien had the better of Jim
Flynn, the Pueblo fireman, in a six-
round go at the Auditorium tonight.
O'Brien's margin was not very
great. In fact, Flynn finished the
stronger of the two in the final
round and had O'Brien in visible
distress, opening a cut over the left
eye and sending him to his corner
a little unsteady. Flynn forced
matters continually.

Acapulco Suffers the Greatest Loss-- Natives Had Predicted Disaster.

(Associated Press.)
MEXICO, July 30.—Central Mexico from the Atlantic to the
Pacific was shaken today by a series of the most severe earth-
quake shocks felt in a quarter of a century. Reports as to
the loss of life are not complete, though official figures show
that fourteen were killed outright and more than a score per-
haps fatally injured. The towns of Acapulco and Chilpancingo
were partially destroyed. According to the observatory rec-
ords, the first shock was felt at 4:15 a. m., causing the bells
in the cathedrals here to toll, broke crockery and in some in-
stances leveled walls. People had hardly recovered from the
first fright when a second and more severe shock drove nearly
everybody to streets and plazas. This movement lasted with
marked severity for a minute and thirty seconds. Tall build-
ings swayed and a number of houses collapsed.
Six persons were killed in Mexico City and its environs.
Four are in the hospitals and their recovery is doubtful. The
American colony escaped unscathed. Peons were terribly
frightened. For days they have been predicting disaster be-
cause the snow on peak Popocatepetl, visible from this city, has
been melting. An old Aztec legend declares that when the
snow on this volcano disappears so too will the city at its base.
The property damage here was slight. All electric currents
in the city were shut off during the first shock and the city
remained in darkness. Wailing and praying of Indians in the
public squares added to the weirdness and painted an unfor-
gettable picture on the minds of the half clad, shivering hordes
of frightened men, women and children who stood in the
drizzling rain waiting for daylight.
Communication from the outside world was cut off for sev-
eral hours. The first message came from Port Acapulco and was
directed to the director of telegraphs. It read: "Acapulco is in
ruins; loss incalculable." Communication was again lost. Early
in the afternoon another wire was opened direct to Acapulco. A
message was received stating that the lower half of the city
was destroyed and four bodies taken from the ruins. A later
dispatch from Chilpancingo stated that three deaths had occur-
ed, the number injured being unknown. The barracks and the
National Palace hospital there were badly damaged. The Ameri-
can consul at Acapulco telegraphed tonight that shocks were con-
tinuing with lessened intensity. All hotels have been rendered
uninhabitable, while not a house in the city escaped damage.
All the buildings along the water front were leveled.
There was no tidal wave but the consul adds that the shocks
were more severe than those of 1907 which inundated a part of
the city. The people are suffering greatly because the repeated
shocks are compelling them to live in the open. The principal
water main of the city was badly damaged and the city's sup-
ply will be badly curtailed for a few days. A telegram from
Igyala, in the state of Guerrero, sent tonight, says the whole re-
gion is trembling. Earthquakes have been continuous for near-
ly fourteen hours.

Orville Wright in His Machine Accom- plishes One of the Most Difficult and Daring Flights.

(By Associated Press.)
WASHINGTON, July 30.—Orville Wright this evening suc-
cessfully covered a ten-mile cross-country flight in his aeroplane
accompanied by Lieutenant Benjamin D. Foulers of the army
signal corps. He not only surpassed the speed requirements in
his contract with the government, but accomplished the most
difficult and daring flight ever planned for a heavier than air
flying machine. The average speed was forty miles an hour.
He made ten miles in fourteen minutes and forty-two seconds,
crossing the valley of Four Mile Run he attained a height of
500 feet. The average altitude was about 200 feet. Taft ar-
rived in time to see the aeroplane land and to participate in
the demonstration which welcomed the triumphant aviators. Wil-
bur, soon after the aeroplane landed, and after he had consult-
ed with Lieutenant Foulers, figured the average speed at forty-
two and one-half miles an hour. "We were making eighty
miles an hour coming back," said Foulers. Orville said it was
easier to fly across country than a rough field. He seemed
more impressed by the lesson the unusual flight taught him
than by any sense of his achievement.
General James Allen, chief signal officer of the army, an-
nounced after the flight that the training of Lieutenants Lahm
and Foulers in the operation of the aeroplane would take place
at some point on the Potomac river near Washington where the
ground is more level and free of obstructions. There will be
no more flights at Fort Myer. Tomorrow the official board will
determine the speed made today. It is said it exceeded forty-
two miles an hour. The Wrights will therefore receive \$30,000,
including a bonus of \$5000 for their aeroplane.

CHINESE DRAWS COLOR LINE AND OUSTS NEGRO

(By Associated Press.)
OAKLAND, July 30.—Lim Ben, a
Chinese restaurant keeper, who dis-
penses "noodles," is the latest to
draw the color line. Among his
patrons recently was a fine looking
mulatto woman. Last night she
brought with her as an escort a
gentleman of color. The two were
promptly ejected by the Chinese and
told that no colored patronage was
solicited.
The aggrieved parties called at the
police station and asked what could
be done about the indignity which
had been heaped upon them.
They were instructed to call on
the prosecuting attorney's office.

BRYAN STATES THAT HE WILL MOVE TO TEXAS

(By Associated Press.)
BELLEFONTAINE (O.), July 30.
William Jennings Bryan is to move
to Texas. He said so yesterday, in
the course of an interview preceding
his delivery of a lecture.
He declares he intended to move
to Texas following a South Ameri-
can tour on which he will start this
fall.
"I am not to seek election to the
senate from Nebraska," he said. "I
am not going to be a Nebraskan for
I am going to move to Texas. I ex-
pect to continue in politics in
Texas."

(By Associated Press.)
CHICAGO, July 30.—Owen Row-
ley probably laughed himself to
death last night. His cousin, Ed-
ward Rowley, told a funny story
while they were setting on an iron

shook him off into the basement,
fifteen feet below. His spine was
broken and he will die.

TWENTY-FOUR RACE

(By Associated Press.)
BRIGHTON BEACH, July 30.—
The twenty-four hour automobile
race on the New Brighton Beach
motordrome was the chief event of
the motor racing associations at to-
day's meeting here which started at
9 o'clock tonight with eight en-
trants. All but two are American
cars. The first accident happened
shortly after midnight when the
Stearns car skidded, turning turtle,
injuring both the driver and me-
chanician. At the end of the second
hour, Robertson, driving a Simplex,
had covered 102 miles, while De-
palma, driving a Fiat, had covered
104.

FAIRVIEW MINE TO BE ABANDONED

(By Associated Press.)
REDDING, July 30.—It has been
decided to abandon the Fairview
mine, which was once the most im-
portant quartz mine in Trinity coun-
ty. Five years ago 150 men were
employed and a 40-stamp mill was
kept in operation. The ore body was
lost a few years ago and \$350,000
has been spent since trying to find
a new one. The company decided
last week that the mine had been
over prospected.
Everything is to be abandoned.
All the iron rails have been with-
drawn from the mine already and
sold. The large office building and
nearly all the dwellings in the little
mine settlement have been disposed
of. The store has been moved away
and the forty-stamp quartz mill will
be sold as soon as possible. The
Fairview is five miles from Miners-
ville, the little settlement having the
postoffice name of Papoose. Twenty
men were employed in the mine
when orders came to pull-up stakes.

THREE WOMEN FIGHT SNAKES IN A MINE

(By Associated Press.)
PITTSBURG, July 30.—Three
women who went out early to pick
berries on a farm about three miles
from Latrobe were rescued yester-
day by farm hands after having
been buried in an abandoned coal
mine for five hours, during which
they fought continually with a nest
of huge snakes.
Two of the women became hys-
terical on their release and are in
a serious condition.
The women who fell into the
mine are Mrs. Maggie Maley, Mrs.
Mary Sarfano and Mrs. Florence
Lacey. As they invaded an inviting
field of berries, the earth suddenly
yawned and swallowed them. All
three fell about twenty-five feet
through a break in the roof of an
abandoned mine into a pool of
shallow water.
